She took a cup of AVAL and soaked it in water. Then, she added nuts and honey. She mixed them well and rolled them into eight LADDUS.

Gayathri's name was called. She took the AVAL LADDUS and ran. CRASH! She fell down and her LADDUS got crushed.

She was sad. She took it to the school head. The head tasted the crushed LADDUS and said, "Your AVAL BOONDHI is really tasty!"

The time had come to name the winner. The school head on the mike said, "Gayathri of class 3, is the winner." Gayathri was very happy.
