1.2 Properties of 3D Objects

We can see many things around us have straight lines and curved lines.

Activity 2

Tick the appropriate boxes to show the lines found in the given objects.

Objects					
Curved line					
Straight line					

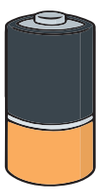

Plane Surface: Surface of few objects like walls, floors papers and top of a table are flat. Flat surfaces are otherwise called as plane surfaces or planes. Cubes and cuboids have flat surfaces.

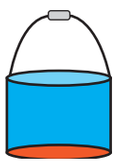

Curved Surface: Surfaces of few objects such as ball, flowerwase, pot are curved. Cone,Cylinder and sphere have curved surfaces.

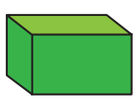

Practice

Tick the appropriate columns.
