Activity 1

Create patterns by impressing the following on a paper.

(i) Using dry leaves /fallen leaves.
(ii) Fingers, hands, toes, feet.
(iii) Using bangles.

Activity 2

Create patterns on your own by impressing the following on a chart paper and decorate your class room.

i. seeds ii. buttons iii. bottle lids

My own patterns

Pattern in geometrical shapes

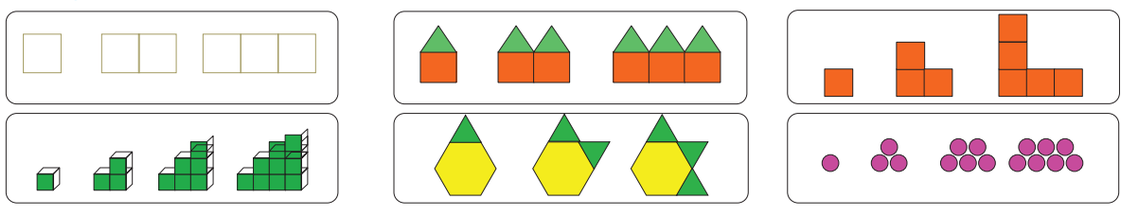

There are two types of patterns. They are

☺ Growing patterns. ☺ Repeated patterns.

Growing Patterns

If some patterns and designs increase or grow with straight lines and geometrical forms, they are called growing patterns.

Example:

Try this

Create some growing patterns using circle and square.
