Let us know

100 centimetre = 1 metre
1000 metre = 1 Kilometre

Millimetre is the smaller unit of length.
Kilometre is the bigger unit of length.

Example:

millimetre (mm) centimetre (cm) metre (m)

Activity 5

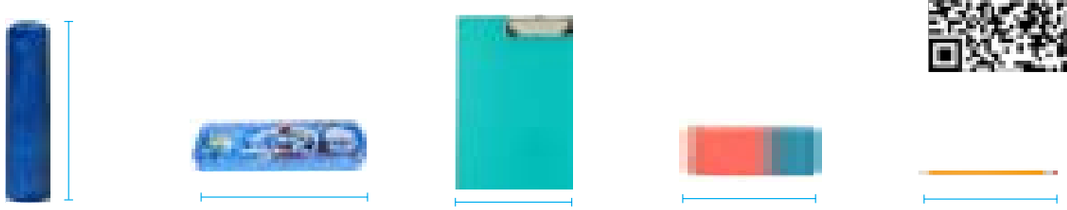

Measure the length of ribbon by tape roll.

Raj ____ cm Anu ____ cm Ram ____ cm Kavi ____ cm

Measurements measured using standard units do not change from person to person.

Practice

Measure the length of following things by centimetre scale and write it in the table below.

____ cm ____ cm ____ cm ____ cm ____ cm

Teacher's note: Teacher can guide the children to measure the things properly.
