3. Write the names of the your family members in the chronological order.

Ask the brith years of your family members and arrange them chronologically.

6.3 Time cyclic events in a year

Every day we wake up in the morning and go to bed at night time.

This process keeps on repeating every day.

Every day the sun rises in the morning and sets in the evening .

Events that keep on repeating in the same manner (without much difference) refers a cycle.

Day and night occurs alternatively forms a cycle.

Some events like growth of a plant, construction of a house do not repeat. These events do not form a cycle.

1. List the events that form a cycle and that do not form a cycle.

i. Coming to school
ii. Rotation of a clock
iii. Days of a week
iv. Growth of your pet
v. Building your house
vi. Making of idly

S.No.	Events that form a Cycle	Events that do not form a Cycle
