1.5. Importance of Physical Exercise

Parents - teachers meet is going on in Sheela's school. As her parents are out of the town, her grandfather attends the meeting. He is a retired army person and even at the age of 90, he does all his work by himself. Everyone in the meeting wonders "What is the secret behind his good health?" and they asked him for his secret. Grandpa replied that he avoids junk food and takes healthy and fresh food. He does physical exercises like walking, running, jogging, and yoga. He advises all parents and children to do exercises regularly.

Physical Exercise

Protects us from diseases
Balances our body weight
Strengthens our muscles and bones
Improves digestion
Improves sleep quality
Increases our energy level
Improves skin health
Boosts brain functions and memory
