Do you know the ingredients used for making idli?

1. Rice (Boiled rice)
2. Black gram (Black Lentils)
3. Fenugreek (Vendayam) and
4. Salt

Idli batter produced from above things is fermented for 8 hours before use.

Idli is cooked by the method called **Steaming**.

Idli is prepared using idli cooker.

Idli Making

1 Soaking rice and blackgram in water

2 Grinding

3 Allowing it to ferment

4 Steaming in idli cooker

Advantages of Steaming

- Easy cooking method.
- Steamed food is easily digested.
- Steamed food retains Vitamin C and E.

Idiyappam
