Water Safety

Water is the elixir of life

Water is very important in our daily life.

If we violate the safety rules while bathing in lake, river, waterfalls and sea, accidents will occur.

Have you ever bathed in lake or river?

If yes, with whom did you go?

LET US KNOW

Whenever we take bath in river or pond, we should go with elders. If we know to swim, we will go for a bath in a river or a pond.

Precautions:

1. We should not go alone to bath in water bodies.

2. Do not step into the stagnant pond.

3. Do not go beyond the danger zone.

4. Do not peep into the well. It may be deep and dangerous.

5. We have to wear life jacket when we travel in water.
